

Build GREEN. Build SMART.

DreeSmart Building a home that's friendly to the environment and your budget is just plain smart. And the DreeSmart system from Drees Custom Homes makes it easier than ever.

With DreeSmart, you can save up to 63% each month thanks to our 16 SEER air conditioning, radiant barrier roof panels and low-emittance windows. Backed by Energy Star® certification, all of these innovative features help conserve energy and reduce your heating and cooling costs.

Named "America's Best Builder 2008" by *Builder Magazine*, Drees Custom Homes builds in over 50 communities throughout the metroplex. To find a community near you, visit dreeshomes.com today.
