

# The end of pre-packaged homes.

**Tired of houses that all look the same? Marquis Homes are anything but cookie-cutter.** Start with original one- and two-story designs and open floor plans that fit today's lifestyles. Mix in more square footage of finished living space, giving you more room where you need it most. Add a dash of unique details that make your home truly your own — with the option to personalize everything from countertops

and cabinetry, to flooring and fixtures. Then top it off with the most value for your money, with prices starting in the \$140s and low interest rates.

When it comes to one-of-a-kind homes, Marquis really is the best of the batch.

**Get More for Less. Get Marquis.**
